EVENTHALL

Introduction

Its state-of-the-art technology, versatile spaces and expansive terraces, combined with seamless accessibility and eco-conscious operations make the Dome Eventhall an unparalleled, premium experience.

WELCOME TO THE DOME,

where elegance meets innovation in the heart of Brussels. Our venue is a masterpiece of design, offering versatile spaces and complete flexibility.

01. From 100 to 1,400 attendees securely accommodated in our main hall and on the entire site.

02. Eco-friendly venue The building was constructed with eco-friendly materials and is eco-managed.

03. Easy access by all means of transports, including bikes and public transportation.

04. 2 panoramic rooftop terraces with a combined area of 1,980 square meters and a view on the city, the canal and the Royal Garden.

Dome Eventhall has been intentionally pared down to be aesthetically pleasing yet minimal. This blank canvas approach allows clients to personalize the space to their own style and transform it into something truly their own.

Dome Eventhall's appeal lies in its distinctive aesthetic, state-of-the-art facilities, unrivalled accessibility, and scalable size. It's a place where events aren't just hosted, but celebrated and remembered.

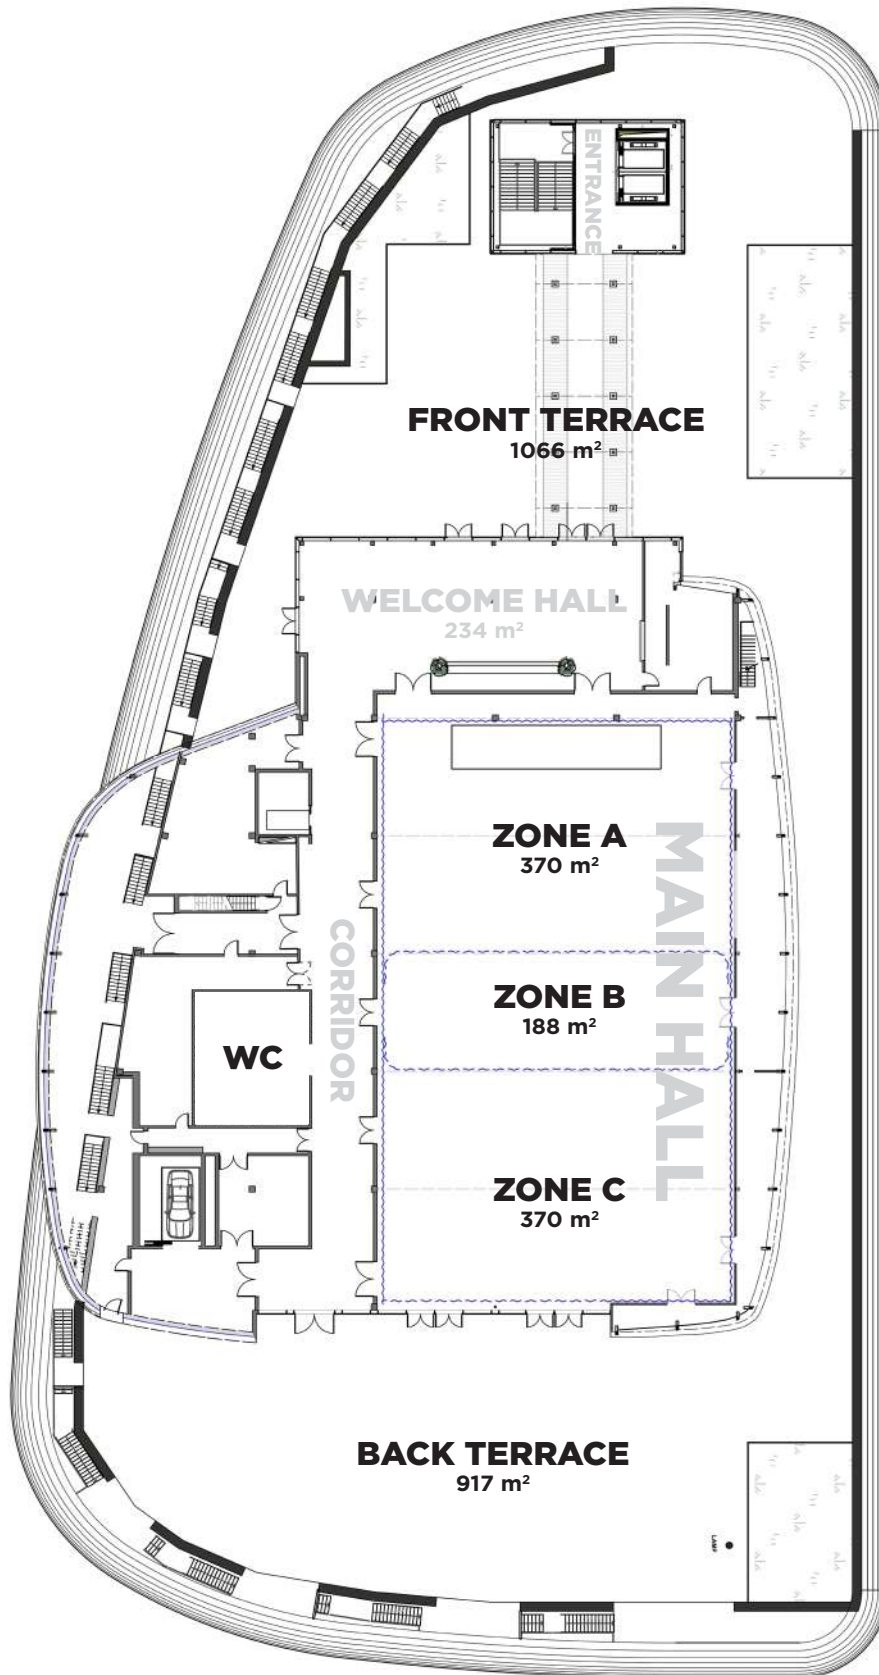

POSSIBILITIES

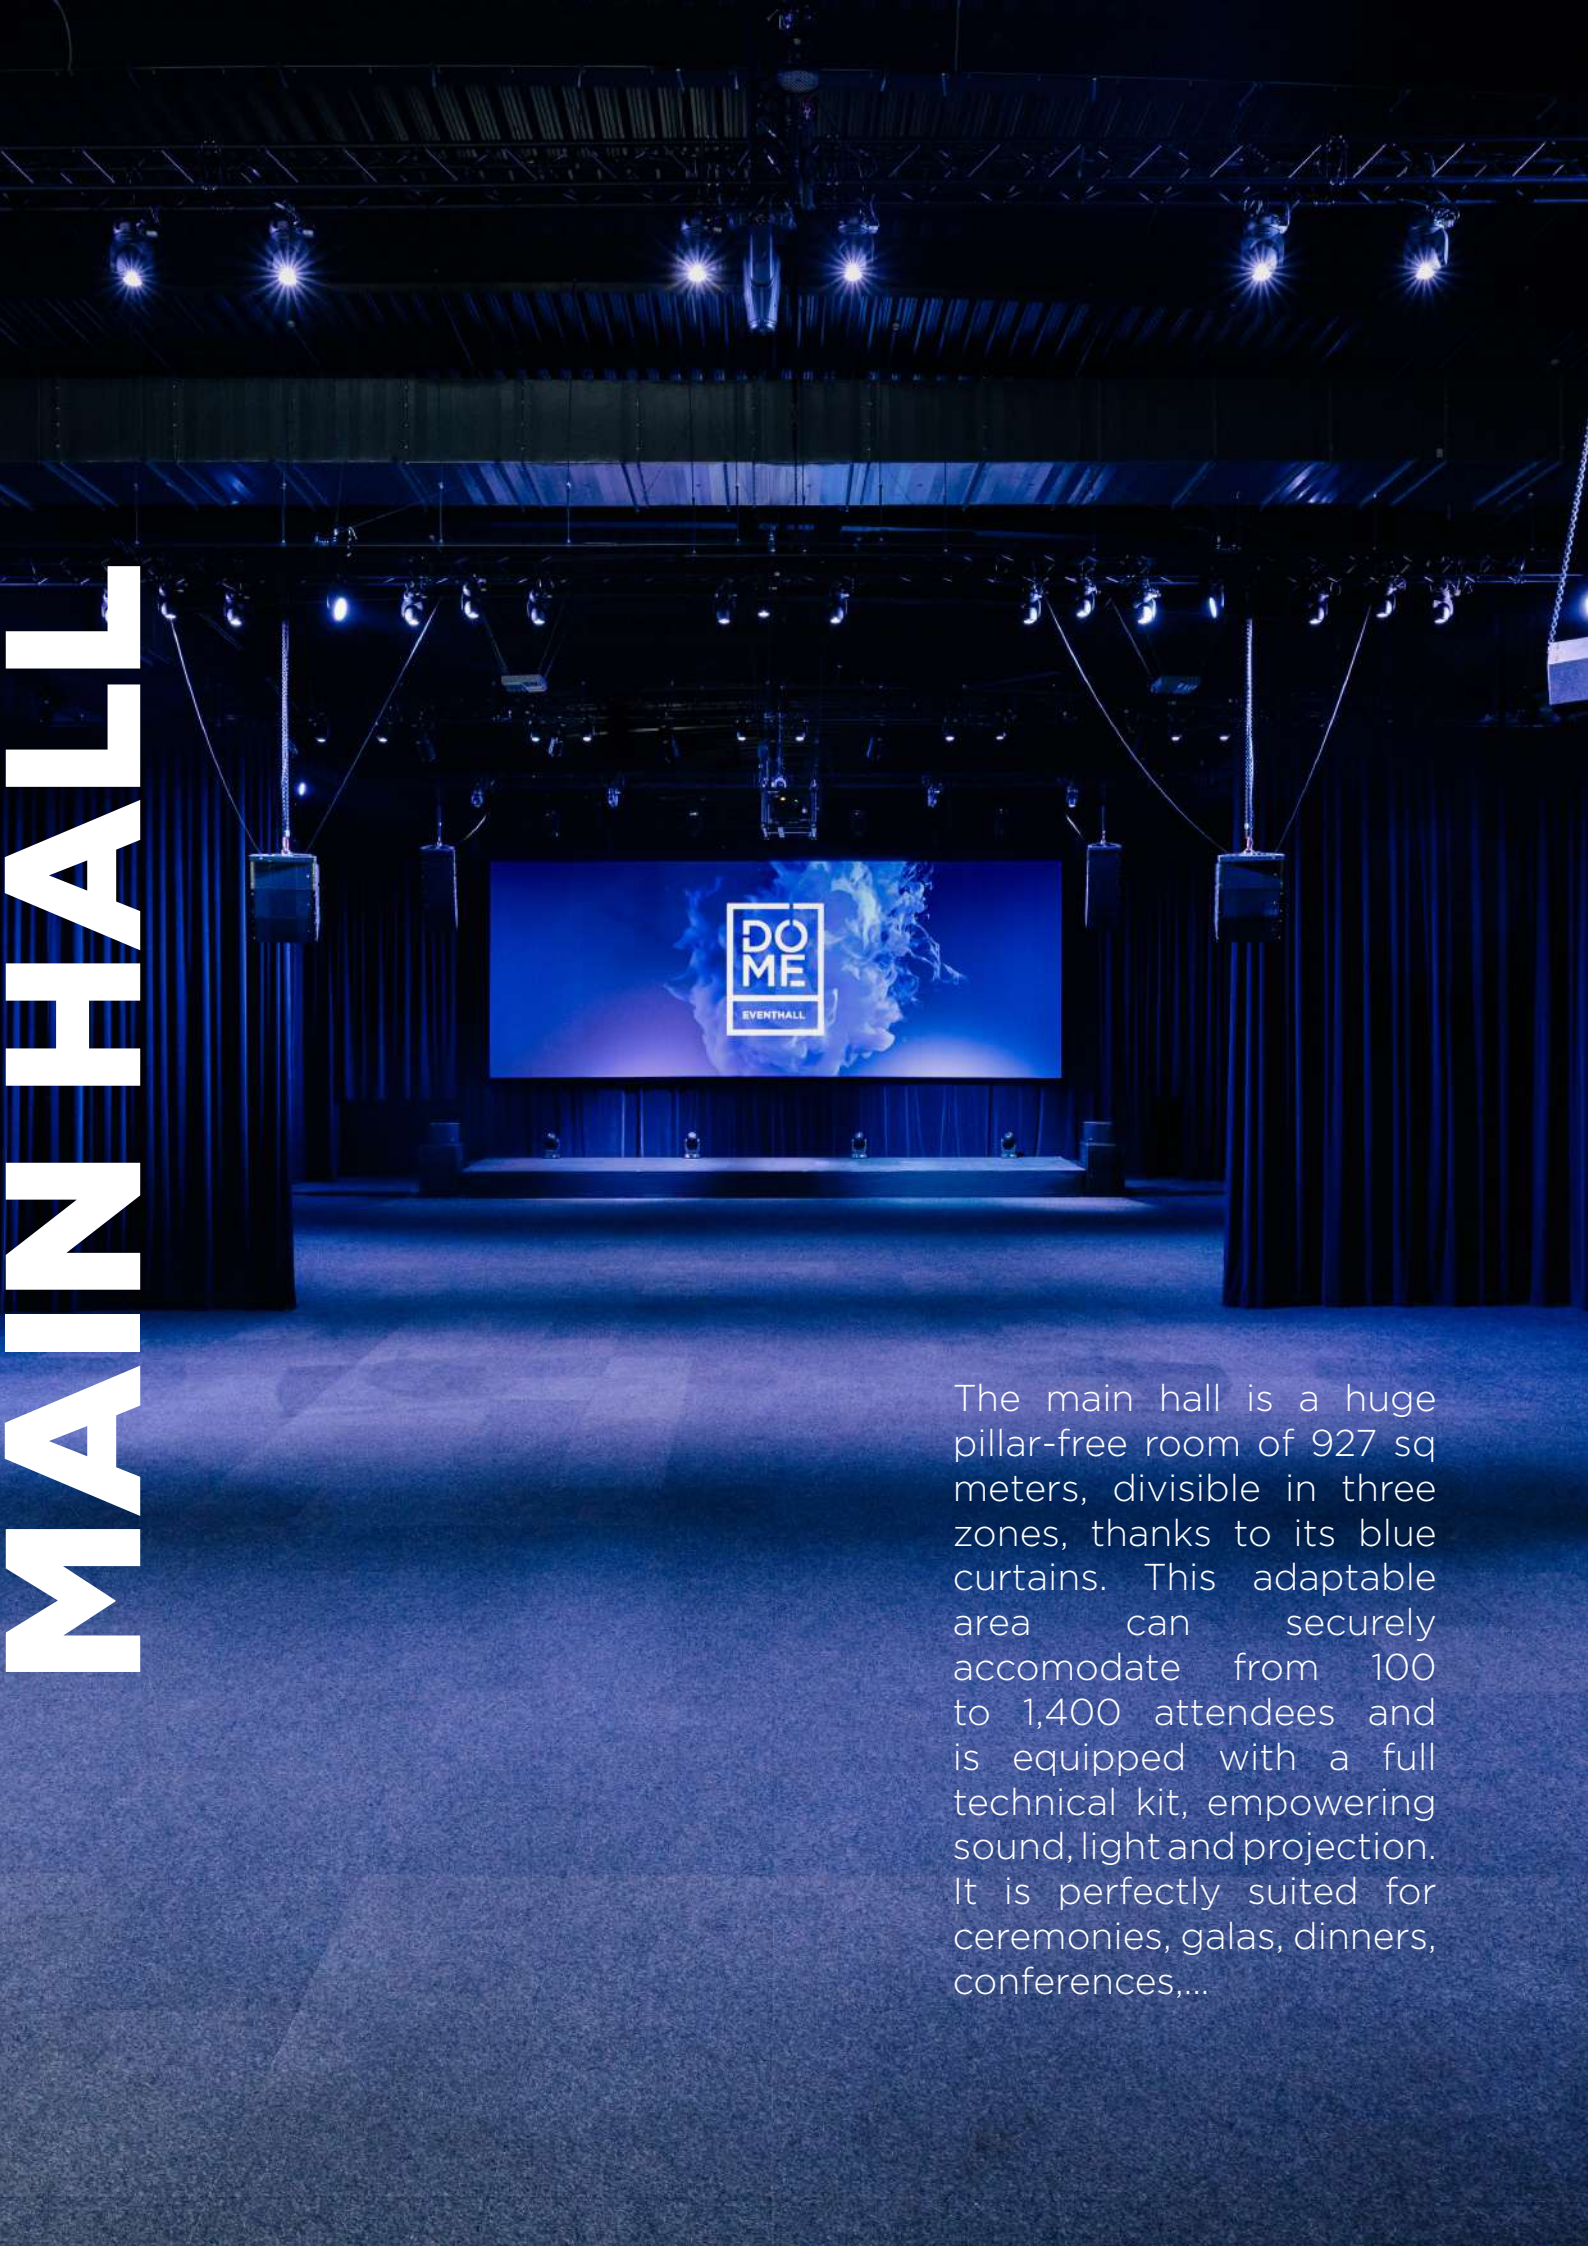

FROM 100 TO 1,400 ATTENDEES

Whether you are planning on organizing an exclusive dinner for selected guests or an international conference, Dome Eventhall has all it takes. The main room (927 m²) is perfectly fit for awards ceremonies, conferences, product launches, dinners, parties, and so much more!

FLOOR PLAN - LEVEL +2

MAIN HALL

The main hall is a huge pillar-free room of 927 sq meters, divisible in three zones, thanks to its blue curtains. This adaptable area can securely accommodate from 100 to 1,400 attendees and is equipped with a full technical kit, empowering sound, light and projection. It is perfectly suited for ceremonies, galas, dinners, conferences,...

MAIN HALL

Here, you have the freedom to customize every detail, including your choice of suppliers. Dome Eventhall is not just a space but a canvas, awaiting the brushstrokes of your unique vision for an event that is as seamless as it is memorable.

SUSTAINABILITY

Embracing sustainability is at our core because we believe in hosting events that respect and enhance our world. Discover the different ways in which Dome Eventhall is the most sustainable event venue in Belgium.

**Progress is impossible
without change, and
those who cannot
change their minds
cannot change
anything.**

-George Bernard Shaw

SUSTAINABILITY AT HEART

Energy efficiency

Dome Eventhall employs cutting-edge energy-saving measures like full LED lighting, motion sensors, and advanced HVAC systems. The complex's solar panels deliver a hefty 520 MWh yearly, powering the equivalent of 115 Brussels homes. Plus, we efficiently repurpose heat from the city's waste-to-energy plant.

Water conservation

Dome Eventhall prioritizes water conservation through the use of low-flow fixtures and water-efficient appliances. Our building complex has a 580 m³ harvesting basin that captures, filters, and treats rainwater. This repurposed water is then used in various ways within the mall, including sanitation, cleaning, and cooling.

Additionally, our landscaping incorporates grass-filled plant beds that thrive with minimal irrigation, reducing water use and chemical dependency. Our lawns are maintained with a mulching method that recycles nutrients thereby further diminishing the need for additional watering.

Waste management

Our commitment to minimizing waste includes recycling stations and promoting reusable and compostable items. In partnership with Alpaca Solutions, we ensure leftover food is

either distributed or converted into energy and compost.

Transportation and accessibility

We champion eco-friendly travel with convenient access to public transport, bike racks, and electric car chargers. Just a brisk walk from the train, or step off the tram or bus at our doorstep. You can even arrive via the Waterbus.

Sustainable materials

Dome Eventhall consistently chooses eco-friendly materials and furnishings. For example, staff clothing is Oeko-Tex STANDARD 100 certified, meaning every aspect of the product has been tested against a long list of harmful substances and found safe for human health. All printing is done with Blue Angel-certified equipment and paper, and our toiletries are CO₂ neutral.

We also furnish our spaces with stylish second-hand furniture and our cleaning team only uses eco-friendly products and solutions to maintain the venue.

Eco-friendly partners

While you have the freedom to select your suppliers, we encourage eco-friendly choices and can recommend certified sustainable partners. Our rooftop is a haven for biodiversity, hosting beehives and insect hotels that support local ecosystems.

BREEAM

Dome Eventhall (and more precisely the building of which it is a part) has been built in an environmentally friendly way and using natural resources obtained from the surrounding area, which has earned the site an “Excellent” rating under the BREEAM certification.

BREEAM certificate:
BREEAM-0044-4877
Score: “Excellent” (highest rating)
Cert. date: 23/12/2015

Ecodynamic Label

We recently obtained the Ecodynamic label. This label enhances eco-management initiatives, particularly in the areas of waste management and prevention, rational use of energy, and management of workers’ mobility...

2023-Ref 2023.03.08-0014
Score: 3/3 stars (maximum score)

CO2logic/South Pole

Our site has received the “CO2 neutral – gold company” certificate from CO2logic/South Pole and is the first in its category in Europe to benefit from this certification.

ACCESSIBILITY

TRAIN

Dome Eventhall is just a brisk 5-minute walk from Schaerbeek Station, accessible via a new pedestrian tunnel.

TRAM

Tram line 7 (STIB) also stops at 'Docks Brussel', just in front of the doors. Lines 3 and 4 also offer access, as they stop on the other side of the building.

WATERBUS

Experience the scenic route with the Waterbus, docking at the 'Pont Van Praet' pier opposite the building. It traverses 7 zones between Brussels and Vilvoorde for a unique arrival.

BUS

The 47 and 56 (STIB) buses stop directly outside the doors at the 'Docks Brussel' stop, making Dome easily accessible. For those coming via route 57, the 'Van Praet' stop is on the other side of the building.

BIKE

Cyclists are welcome with open arms by the 200 outdoor public parking spaces, including a Villo! docking station for 40 bikes, and a 160-space bike park. Charging points and a bike maintenance station are also available.

CAR

Dome Eventhall shares 1,700 underground parking spots with the complex. The main entrance can be found on level -2 (pink zone). Charging stations are available await on level -1.

PANORAMIC TERRACES

Perched atop the cityscape, the venue boasts two breathtaking panoramic rooftop terraces with a combined area of 1,980 m². The first terrace, encountered upon entering, offers a stunning view of the bustling city, capturing its vibrant energy and architectural beauty.

As guests make their way through the venue, they arrive at the second terrace, which presents an unrivaled overlook of both the Brussels canal and the Royal Palace gardens. This unique vantage point allows visitors to savor the harmonious blend of urban splendor and natural beauty, making it the perfect setting for unforgettable moments.

THE TEAM

Team Dome hopes to see you soon on site, for your next exciting projects! Let's build strong relations together.
